STAFF MEETINGS & INSETS

Great CPD shouldn't mean supply cover, travel costs and staff out of school for the day. It should be timely, relevant and feel like it was made for your team – because it was.

All sessions in this section are available exclusively as bespoke training for individual schools, clusters or MATs, delivered either face to face or via a dedicated online session.

When you book with ECM, you're working with experienced education professionals who understand the realities of classroom life and the pressures on school leaders. Many of our trainers are Ofsted-trained and continue to work as serving inspectors – so when they talk about what inspectors look for, what strong practice looks like and where schools need to focus, they're speaking from the inside.

Think of it as having a trusted, informed voice in the room. Someone who knows the current landscape, understands your context and can respond to your staff's questions with authority and honesty, not just a slide deck. The difference between training that ticks a box and training that genuinely moves things forward.

Whether you need a focused staff meeting session or a full INSET day, we'll shape the content around your setting, your learners and your current priorities.

For clusters and MATs, bespoke delivery makes even more sense. Bringing training to your schools, rather than sending staff out to open courses, means consistent messaging across your trust, shared professional dialogue and significantly better value per head. One trainer, your venues, your teams: a coherent CPD offer that works at scale without the logistical headache.

STAFF MEETINGS & INSETS

This section brings together all of the courses available to run as staff-meeting sessions in your school. Each one is designed to be practical, focused and immediately useful, giving your team clear guidance they can apply straight away.

Browse the options below and choose the sessions that best match your current priorities; every course can be tailored to your setting and delivered at a time that works for you.

And if you can't see exactly what you're looking for, just get in touch with us at admin@ecm-educationconsultants.co.uk to discuss further options.
